

N.C. Nurse Aide I Curriculum

MODULE Q

Person-centered Care

Objectives

- Define person-centered care.
- Describe the characteristics of a facility incorporating person-centered care.

Person-centered Care

**Is the practice of basing
resident care on individual
resident needs, preferences and
expectations**

Person-centered Care – Goals

- To see the person as a unique individual
 - To respect skills and abilities
- To support the person to be successful and maintain independence
 - To help the person meet needs for attachment, inclusion, occupation and comfort
- To support the person as a member of a community

Person-centered Care – Relationships

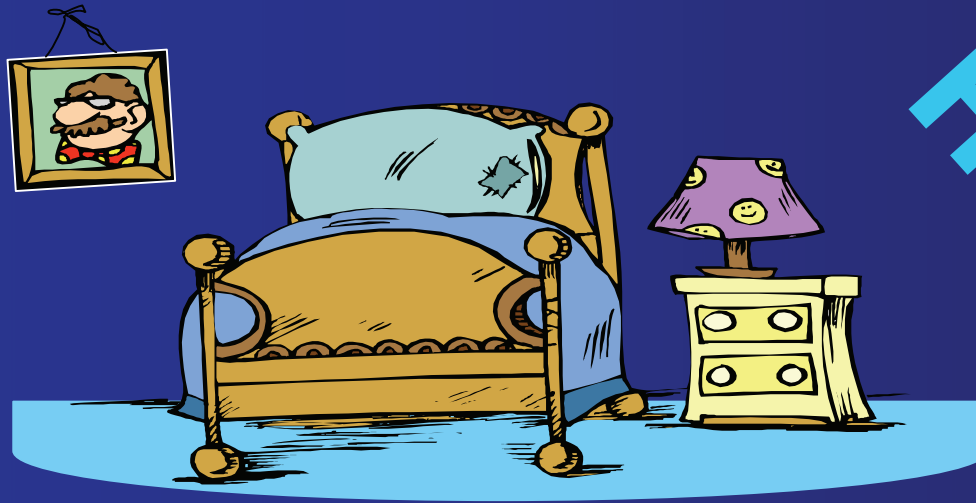

Tasks are important
in health care...

.....but what matters
most are relationships

Person-centered Care – Importance

Where a person lives is the person's

HOME

...and should be made more like a home
through person-centered care

Person-centered Care – Nurse Aide's Role

- Federal regulations support person-centered care and quality of life
- Caregiver behaviors that encourage person-centered care include.....

Person-centered Care – Nurse Aide's Role

Putting
person-
centered
care into
practice

Person-centered Care – Relationships

It is through relationships that we come

**to understand
ourselves, co-
workers and
residents better**

Person-centered Care – Goals

- To see the person as a unique individual
 - To respect skills and abilities
- To support the person to be successful and maintain independence
 - To help the person meet needs for attachment, inclusion, occupation and comfort
- To support the person as a member of a community
