SUBJECT: GAP Analysis Survey

We would like to ask a big favor! Please find attached the link to a survey that we need to have completed by either you or your designee. As a result of the North Carolina Community College System (NCCCS) 2007-2009 Strategic Plan, we have contracted with Stuart Rosenfeld at Regional Technology Strategies (RTS) to do a gap analysis for the community college system. The purpose of their study is to (1) perform a supplemental gap analysis to validate the educational gap areas identified in the report, "Staying A Step Ahead: Higher Education Transforming NC's Economy," and (2) to develop a gap analysis system that can be maintained by NCCCS staff long term.

The link for the survey is http://www.surveymonkey.com/s.aspx?sm=j6mXieWhrMaTMGOtvCygRQ_3d_3d
Information gathered from this survey will be invaluable to RTS and subsequently to our colleges. Thank you in advance for your participation.
